A Shooting on a Train.

A shooting affair occurred on a Missouri Pacific passenger train, near Higginsville, the other evening, in wich Colonel Tom Price, of near Sweet Springs, was probably fatally wounded by Colonel Joe Higgins, of Houstonia, The difficulty originated over a disputed claim against the Buckener estate, in Pettis County, of which Higgins is administrator. Higgins occupied a seat in front of Price. The lie was passed, when Price reached over as if to strike Higgins. Higgins immediately turned, drew a revolver and fired at Price, the bullet entering the lower abdomen. Both parties are prominent stock-raisers, and are influential politicians in Pettis County. As soon as the train reached Houstonia Colonel Price was taken to a hotel, and Colonel Higgins gave himself up to the au-thorities Calonel Price died in a few The business failures during the last seven

MONEY AND BUSINESS.

The Commercial and Monetary Situation Throughout the Country as Shown by R. G. Dun & Co's. Weekly Review-The Volume of General Business Continues Large Beyond Precedent.

NEW YORK, Nov. 8.-R. G. Dun & Co.'s weekly review of trade says: The volume of business, both domestic and foreign, continues large beyond precedent, and in character prosperous. But there is serious depression in the stock market, and other speculative markets are generally lower. The labor situation is crats, 29 Republicans and 4 Farmers' generally undisturbed, though the struggle between morocco manufacturers and walking delegates at Lynn still continue, F. and L. U. members with the Repuband there are received rumors of a railroad strike in contemplation. The monetary situation is substantially unchanged. The reports from all parts of the country show that business is large and healthy. Boston notes wool more quiet and firm. Philadelphia flads the wool trade active; but a shade weaker, but roll-ing mils have full orders. At Chicago grain receipts equal last year's. At St. Louis trade is rallying again; at Cincinnati it is encouraging, the tobacco trade improving; at Pittsburgh iron is rather depressed, but the glass trade is fair; at Claveland bus ness is good; though in clothing dull, and at Detroit there is a healthy activity. No change is noted at Milwaukee. At Omaha business is excelent; at St. Paul and Kansas City fairly active. New Orleans reports larger trade than a year ago, liberal receipts of cotton and sugar, and a good outlook. At Memphis and Savannah the trade is sound and prospects bright. Iron is weaker here for Southern, and bessemer is weaker at Pittsburgh, but at Philadelphia revised quotations are \$18 and upward for standard Pennsylvania: \$17 and upwards for standard Southern, and \$15 for neutral forge. More inquiry for rails is seen and the purchase of the Allegheny mills by the Carnegie interest is expected to have an important influence on the market. Foreign trade in October will surpass that of any other month in the history of the country. for exports from New York show a gain of \$9,000,000 indicating an aggrégate of more than \$105,000,000 for the country, and imports also show an increase of about \$9.0 0.000 for the month. The heavy excess of exports helps to weaken the rate of exchange. The great depression in sugar trusts; has muchinfluence, but the shortness of erop and scarcity of money for speculative use are sufficient reasons for a reaction, which the great strength of the farmers' organizations at the West tends to increase. The money market here has been active at about 6 per cent. At Boston the market is strong, at Philadelphia firm at 6 to 7 per cent, with large demand for discounts; at Chicago close, with an advance in rates of exchange, the tightness being due to increase of business, and at St. Louis the market is strong at 7 to 8 per cent. New Orleans reports an easier market, but at most Western centers the demand is sharp, while outside of such centers the market is

days number: For the United States, 172; for Canada, 33; total, 295; as compared with a total of 218 last week. For the correspond. ng week of last year the figures were 267, representing 223 failures in the United States and 39 in Canada.

## RECIPROCITY.

President Thomas of the New York Produce Exchange Writes Secretary Blaine on the Subject of Rec procity with

NEW YORK, Nov. 8 .- President Evan Thomas, of the Produce Exchange has sent an official letter to Secretary Blaine, favoring reciprocity with Nowfoundland. Among other things Mr.

The proposals made by the British Gov-Mary Bryan, aged fourteen years, ernment in behalf of the colonial government of Newfoundland for a reciprocity treaty with the United States, have been brought to the attention of the board of managers of the New York Produce Exchange. The matter was referred to a committee who made investigation among merchants who had been engaged in the trade. This committee, in view of information received, reported in favor of reciprocity and a memorial to the State Department of the United States. The board of managers therefore, the letter continues, offer the following facts for the consideration of the State Department: The drifting away to other countries of large trade in breadstuffs and provisions since the abrogation of the so-called Washington treaty; that it is believed this trade could be re stored by a proper treaty. The privileges of American fishermen, touching their right to

buy bait, etc., to be restored by the proposed treaty. While but little Newfoundland cod-fish is consumed in the United States, the through freight business is increasing and is a source of revenue through the disbursements of money for labor, freighting, transferring, warehousing, insuring, tug-boat hire, and other things inseparable from the handling of merchandise in this port. Large quantities of goods come forward to this port for trans-shipment to Europe, Brazil, West Indies, Central America and other points; and if by the removal of dumoned, but all attempts to restore life of the products of its fisheries and manufactures, and minerals, the burden necessarily incident to our bonding laws can also be removed so that this through freight could be handled with greater facility, and the port of New York would become the great distributing center for the products of the island of Newoundland. The greater facilities we can furnish for the export trade of the merchants of Newfoundland the closer will greater their ability to purchase from us. If Newfoundland offered greater advantages for reciprocity, she would become a great market for our breadstuffs and would

Lost with All On Board. HALIFAX, N. S., Nov. S.-It is reported from Summerside that several envelopes bearing Swedish postmarks and addressed to persons "on the bark Falka" were picked up by a pilot at Fish Island. Numerous letters similarly addressd, a gold-headed cane and other articles with wreckage have also been picked up along the New London (P, E. I.) shore. It is said that during one of the late storms persons in the neighborhood of Tignish saw a large Mrs. Pratte was the oldest of the origi- bark in distress off the shore at that place. While they were watching her a thick rain squall came up and hid her from view, and when it cleared away the vessel had disappeared and was not seen again. Every thing points to the loss of a foreign bark with all hands on

THE ARMY.

Synopsis of the Report of the Adjutant-General of the Army—The Percentage of Desertions Decreasing—The Canteen System a Success So Far as Adopted-The Army Considerably Below Its. Authorized Strength.

WASHINGTON, Nov. 8 .- Acting Adjutant-General McKeever submitted his annual report to the Secretary of War yesterday. The report says that the desertions in the army during the past year were 489 less than the number reported for last year, and the per centage to the enlisted strength has been reduced from eleven to nine. Two important measures, long advocated by the Adjutant-General's office, have, he says, recently become laws. The first authorizes the establishment of summary courts for the prompt cognizance of minor offenses, and the second provides that when punishment is left to the discretion of courts-martial, it shall not, in time of peace, exceed a limit which the President may prescribe. The adoption of a well-considered code of punishments for all military offenses, except those specifically prescribed by the Rules and Articles of War, will undoubtedly remove a greatsource of irritation and discontent resulting from the present inequality of punishment awarded offenses of a similar nature, but committed at different times and at different posts.

At the date of his last annual report, General McKeever says, the canteen system, while giving promise of full realization of the anticipations which had led to its adoption, had not been extensively developed. Great progress, however, has recently been made, and a. the preliminary details having been accomplished, the institution may be considered as permanently established. At n present canteens are in successful oper--eight posts, and during hs ended June 30, 1890, usiness of \$474,625, with fit of \$88,430.

to the operations of the ing service in the larger McKeever says tempos have been opened from nce January, 1890, by ofeneral recruiting detail, maller cities and towns, iting parties have been surrounding rural disistent efforts have been n recruits from farming munities away from the of population. Some of re very successful-othso. The class of men is believed, from reto be considerably above

N. Y., Nov. 8.—Chauncey the principal speaker he formal dedication ex-Young Men's Christian lding. Rufus A. Siblev. Sibley, Lindsay & Curr, introduced Dr. Depew, ed by the great audithusiastic applause. In

is address he said: L DIES AND GENTLEMEN: me greater gratification uced as the greatest speak-It varies the monotony, for at least half the time as the er speaker of America." ney to-day, I have devoted ween my reflections on the may happen in a Republic

king of what I shall say to you. Some years ago I stopped over here to attend a dinner with distinguished citizens. That is always a pleasure to m: [A p. plause.] The dinner was a pious fraud. 1 found I was to assail the pocket-books of your citizens in the interests of a building. You seldom get the cause so near to the effect. [Applause.] Mr. Depew said the Y. M. C. A. had grown greatly since its foundation, but he regretted that the work of the association had not been received with more liberality by those directly inter-

ested. He said that the first time he came to Rochester was just after he was admitted to the bar. He came to make a political speech. "I am thankful," said he, "that I did not come on a similar errand this fall." Continuing, he said: "Whoever was responsible for the result this year, I was not the cause of it." Mr. Depew dwelt upon the import-

ance of the work of the association to the country, and closed with an appeal to his audience to stand by it and sup-

# LITERALLY WIPED OUT.

Every House in the Town of Winslow, Ind., Destroyed by Fire. PETERSBURG, Ind., Nov. 8 .-- A terrible conflagration occurred at Winslow, a town of Pike County, this State, yesterday morning. The whole town has been wiped out of existence. The houses were all frame structure, and the fire spread with such rapidity that all the efforts of the people to extinguish it proved unavailing. Not a house is left standing and four hundred people are homeless. There is no fire department, and no provision was made for the sudden coming of such a calamity. How the fire originated has not as yet been ascertained, but it is supposed to have been caused by a defective flue. Several of the houses were close together, and once the fire had made some headway it was impos sible to isolate it.

One Man Killed and Four Injured by the Explosion of a Shell.

STATEN ISLAND, L. I., Nov. 8 .-Shortly after 2 p. m. yesterday, a shell exploded in a casemate of the lower fort at Fort Wadsworth, killing one man and injuring four others. The men were at work tapping shells, which consists of filling the shells with powder and getting them ready for use. It is not clear just how the accident occurred, but it is believed that some loose powder got into the primer and when the caps were being placed in position the powder exploded the shell

The Fatal Shooting of Colonel Price. SEDALIA, Mo., Nov. 8 .- Colonel Thos. B. Price, who was shot on a Missouri slapped Higgins in the face for calling him a liar, and immediately afterwards was shot by Higgins, who fired from the

pocket of his overcoat.
